

What is Genesis luxury vinyl flooring?

Genesis luxury vinyl flooring is installed with the more traditional method of using specially formulated flooring adhesive.

Available in a range of realistic wood grain colours, designs and textures, Genesis planks are wider and longer than most other entry level planks, working well not only in standard size rooms but also giving your open plan areas an amazing look and feel.

Unlike real wood it will not warp, split or splinter and does not require regular staining or polishing.

*"Quality without
Compromise"*

Eminence Luxury Vinyl Flooring

- Inclusion of Australian timber species adds to the aesthetics of the range.
- Utilises the latest technology throughout the plank and backing system to achieve maximum performance.
- Can be installed over most existing hard floors.*
- Created using a state-of-the-art production process, ensuring unsurpassed quality and peace of mind.
- Incorporated fibreglass inter-layer for maximum dimensional stability.
- Hard wearing embossed wear layer for better appearance and extended life.
- Factory finish polyurethane coating for scuff resistance and ease of cleaning.
- Micro-bevelled edges that enhance the plank to plank joins.
- Ease of installation utilising the versatility of the 'loose lay' concept.*

What is Eminence Loose Lay flooring?

Eminence is a luxury vinyl flooring that features the latest "loose lay" technology. A fibreglass interlayer increases dimensional stability and a secure grip backing helps hold vinyl planks in position in your room of choice. **

Available in a range of realistic wood grain colours, designs and textures, Eminence planks are 1219mm x 184mm (48" x 7.25") which adds to the realistic appearance in not only standard size rooms, but also giving your open plan areas an amazing look and feel.

Eminence does not require the planks to be "clicked" or "locked" together, and can be installed over most existing hard floors in your home.*

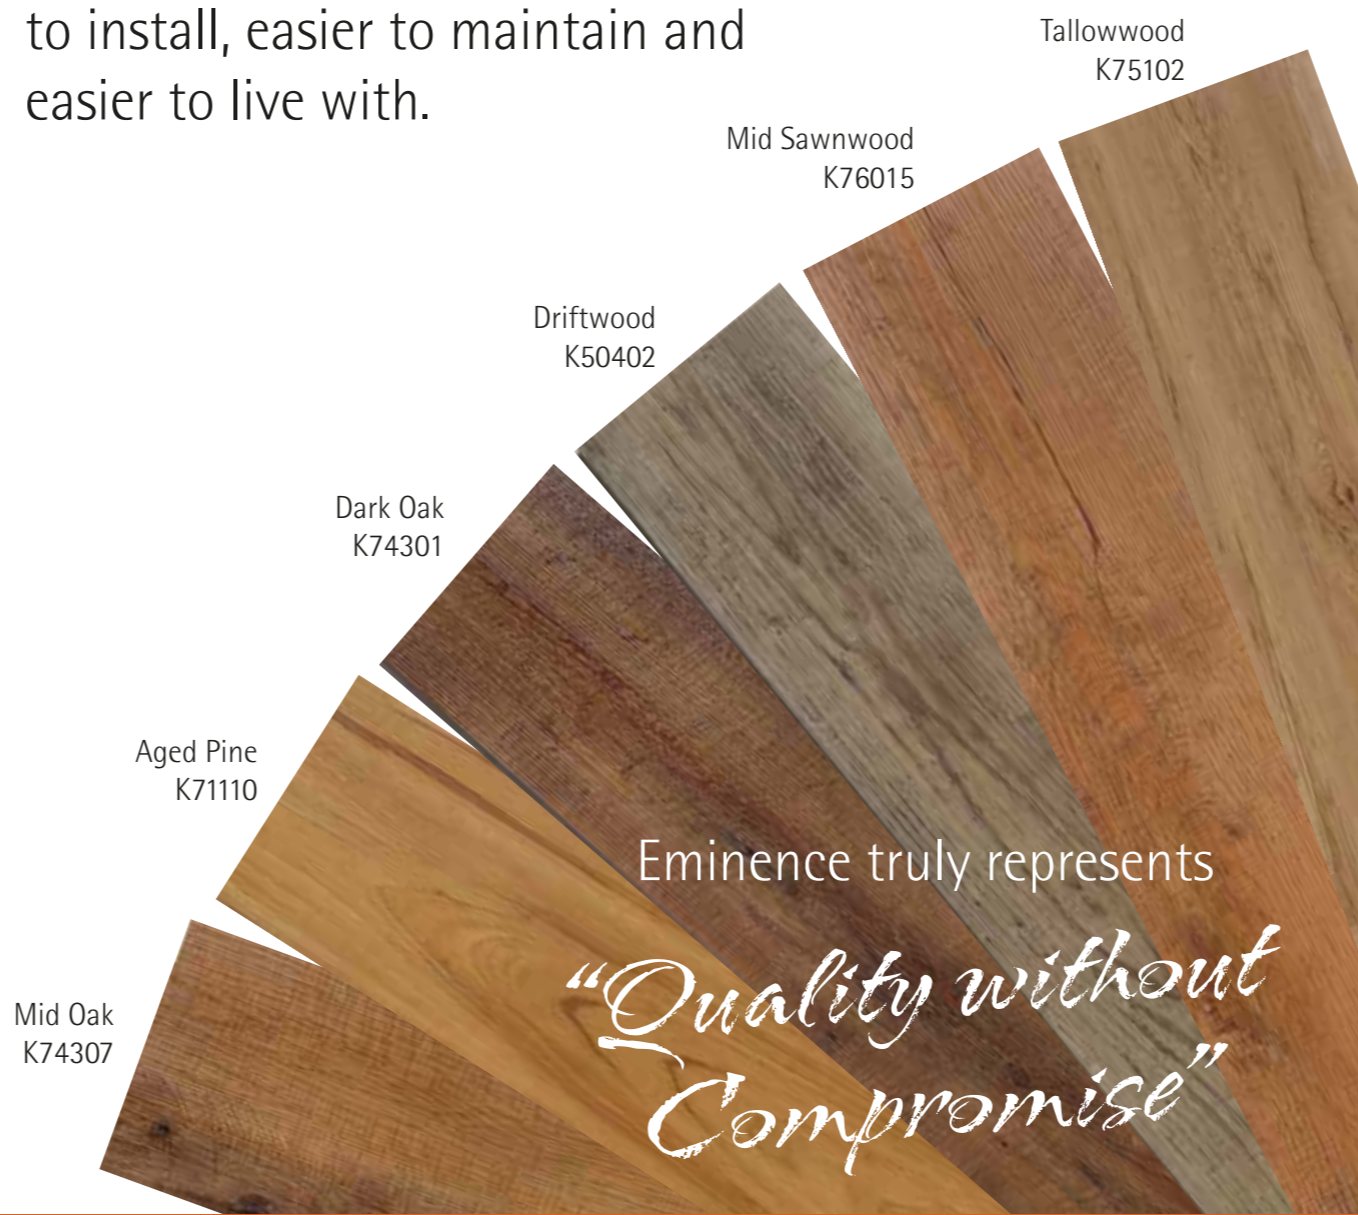

Unlike real wood, Eminence planks will not warp, split or splinter and do not require regular staining or polishing.

Eminence is:

- PRACTICAL
- AFFORDABLE
- VERSATILE
- STYLISH
- EASY TO INSTALL
- HAS A 20 YEAR RESIDENTIAL WARRANTY

All this amounts to an attractive, hard wearing floor that is easier to install, easier to maintain and easier to live with.

Quick and easy Installation

All you need is a level, smooth and clean subfloor to lay your Eminence planks directly over.*

Quiet

Eminence flooring helps to absorb sound. This means a reduction in day-to-day noises bouncing and echoing through your home, particularly "drummy" footsteps.

Warm Underfoot

Eminence vinyl flooring is softer and warmer than natural stone or wood.

Low Maintenance

A quick sweep or mop with warm water and vinyl floor cleaner is all you need to keep your floors looking fabulous.

Durable

The Eminence range of luxury vinyl flooring is backed by a 20 year residential / 10 year commercial warranty. Unlike real timbers it will not warp, split or splinter and does not require regular staining or polishing.

Easy to Fix

Life happens, in the unlikely event you need to replace a plank all you need do is lift the damaged plank out and replace it. Be sure to keep a few spare planks from the initial installation – just in case.
