protects from wear and tear

High Definition Photographic Layer
gives a natural, realistic appearance

Primary Backing (incorporating Double Glass-Fibre reinforcement)
creates strength, comfort, insulation and dimension.

Secure grip Backing
enhances the bond to the subfloor

What is Eminence Flooring?

Eminence is a luxury vinyl flooring that features the latest technology. Double fibre interlayers increases dimensional stability and a secure grip backing help hold vinyl planks in position in your room of choice.

Available in a range of realistic wood grain colours and textures, Eminence planks are 1219mm x 184mm (48" x 7.25") which adds to the realistic appearance in not only standard size rooms, but also giving your open plan areas an amazing look and feel.

Eminence does not require the planks to be "clicked" or "locked" together, and can be installed over most existing hard floors in your home. Unlike real wood, Eminence planks will not warp, split or splinter and do not require regular staining or polishing.

Eminence is:

PRACTICAL
AFFORDABLE
VERSATILE
STYLISH
EASY TO INSTALL
20 YEARS RESIDENTIAL WARRANTY

Eminence Luxury Vinyl Flooring

- inclusion of Australian timber species adds to the aesthetics of range.
- Utilises the latest technology throughout the plank and backing system to achieve maximum performance
- Can be installed over most existing hard surface floors.
- Created using a state-of-the-art production process, ensuring unsurpassed quality and piece of mind.
- Incorporated fibreglas interlayers for maximum dimensional stability.
- Hard wearing embossed wear layer for better appearance and extended life.
- Factory finish polyurethane coating for scuff resistance and ease of cleaning.
- Micro-bevelled edges the plank to plank joints.

All this amounts to an attractive, hard wearing floor that is easier to install, easier to maintain and easier to live with.

Eminence truly represents

"Quality without Compromise"

Quick and easy Installation

All you need is a level, smooth and clean subfloor to lay your Eminence planks directly over

Quiet

Eminence flooring helps to absorb sound. This means a reduction in day-to-day noise bouncing and echoing through your home, particularly "drummy" footsteps.

Warm Underfoot

Eminence vinyl flooring is softer and warmer than natural stone or wood.

Low Maintenance

A quick sweep or mop with warm water and vinyl floor cleaning is all you need to keep your floors looking fabulous.

Durable

The Eminence range of luxury vinyl flooring is backed by a 20 year residential/10 year commercial warranty. Unlike timbers it will not warp, split or splinter and does not require regular staining or polishing.

Easy to Fix

Life happens, in the unlikely event you need to replace a plank all you need to do is lift the damaged plank out and replace it. Be sure to keep a few spare planks from the initial installation. - just in case.
