Eminence Range

Eminence is a luxury vinyl flooring that features the latest technology. An added fibreglass interlayer increases dimensional stability and a secure grip backing helps hold vinyl planks in position in your room of choice.

Available in a range of relaistic wood range colours and textures. Eminence planks are 1219mm x 184mm (48" x 7.25") which adds to the realistic appearance in not only standard size rooms, but also giving your open plan areas an amazing look and feel.

Eminence does not require the planks to be “clicked” or “locked” together, and unlike real wood, Eience planks will not warp, split or splinter and do not require regular staining or polishing.

- Utilises the latest technology throughout the plank and backing system to achieve maximum performance.
- Can be installed over most existing hard surface floors.
- Created using a state-of-the-art production process, ensuring unsurpassed quality and peace of mind
- Hardwearing embossed wear layer for better appearance and extended life.
- Factory finish polyurethane coating for scuff resistance and ease of cleaning.
- Micro-bevelled edges enhance plank to plank joints.
- Totally waterproof flooring.

Wear Layer:	0.3mm
Residential Warranty:	20 years
Commercial Warranty:	10 years light commercial
Features:	Micro bevelled edge PU coating Totally waterproof

Eminence Tallowwood

Quick and Easy Installation

All you need is a level, smooth and clean subfloor to lay your Eminence planks over.

Quiet

Eminence flooring helps absorb sound. This means a reduction in day-to-day noise bouncing and echoing through your home, particularly “drummy” footsteps.

Warm Underfoot

Eminence vinyl flooring is softer and warmer than natural stone or wood and is also compatible with underfloor heating.

Low Maintenance

A quick sweep or mop with warm water and vinyl floor cleaner is all you need to keep your floors looking fabulous.

Durable

The Eminence range of luxury vinyl flooring is backed by a 20 year residential / 10 year commercial warranty. Unlike timbers it will not warp, split or splinter and does not require regular staining or polishing.

Easy to Fix

Life happens, and in the unlikely event you need to replace a plank, all you need to do is lift the damaged plank out and replace it. Be sure to keep a few spare planks from the initial installation, just in case.

Eminence Specification	
Size:	1219mm x 184mm (48" x 7.25")
